WORK EXPERIENCE

Software Developer Intern (DwellSmart Pvt Ltd)

Apr 2025 – Aug 2025

- Developed a secure, role-based dashboard with distinct functionalities for multiple user types using React.js (frontend) and Java Spring Boot RESTful APIs (backend) integrated with MySQL.
- Participated in design discussions, interpreted architecture diagrams, and implemented scalable, high-availability architecture meeting security and performance requirements.
- Automated data handling and testing workflows, reducing manual effort 30% and improving development efficiency. Optimized database queries and API response times 50% and contributed to code reviews to enhance team coding standards.

Front-end Developer Intern (Codules Technologies)

Sep 2024 – Nov 2024

- Developed a hotel booking system using React.js and Tailwind/Bootstrap. Integrated responsive UI/UX, room search, booking calendar, and user authentication.

PROJECTS

Smart Agriculture Information Portal - React.js, Tailwind CSS - [Link](#)

- Built a responsive React.js frontend with Tailwind CSS to display state-wise seasonal crop data with advanced search and filters. Created reusable React components showing detailed crop info, disease management, and fertilizer recommendations enabling farmers to access insights 50% faster.
- Developed secure Spring Boot REST APIs with JWT authentication for data protection and role-based access control. Integrated frontend and backend by managing JWT tokens for secure API calls and route protection in React.

Innovative Talent Acquisition Platform - [Link](#)

- Built 'ITAP', a full-stack job portal with features like job listings, applications, and user authentication. Developed frontend with HTML, CSS, JS and backend using Advanced Java (Servlets, JSP, JDBC).
